	TOTAL		10	4
PROCUREMENT			Max Score	SCORE
Collaboration in controlling costs	Cost Control		5	3
CSR audit score using Ecovadis	Ecovadis	49	5	3
	TOTAL		10	6
	Grand TOTAL		25	10

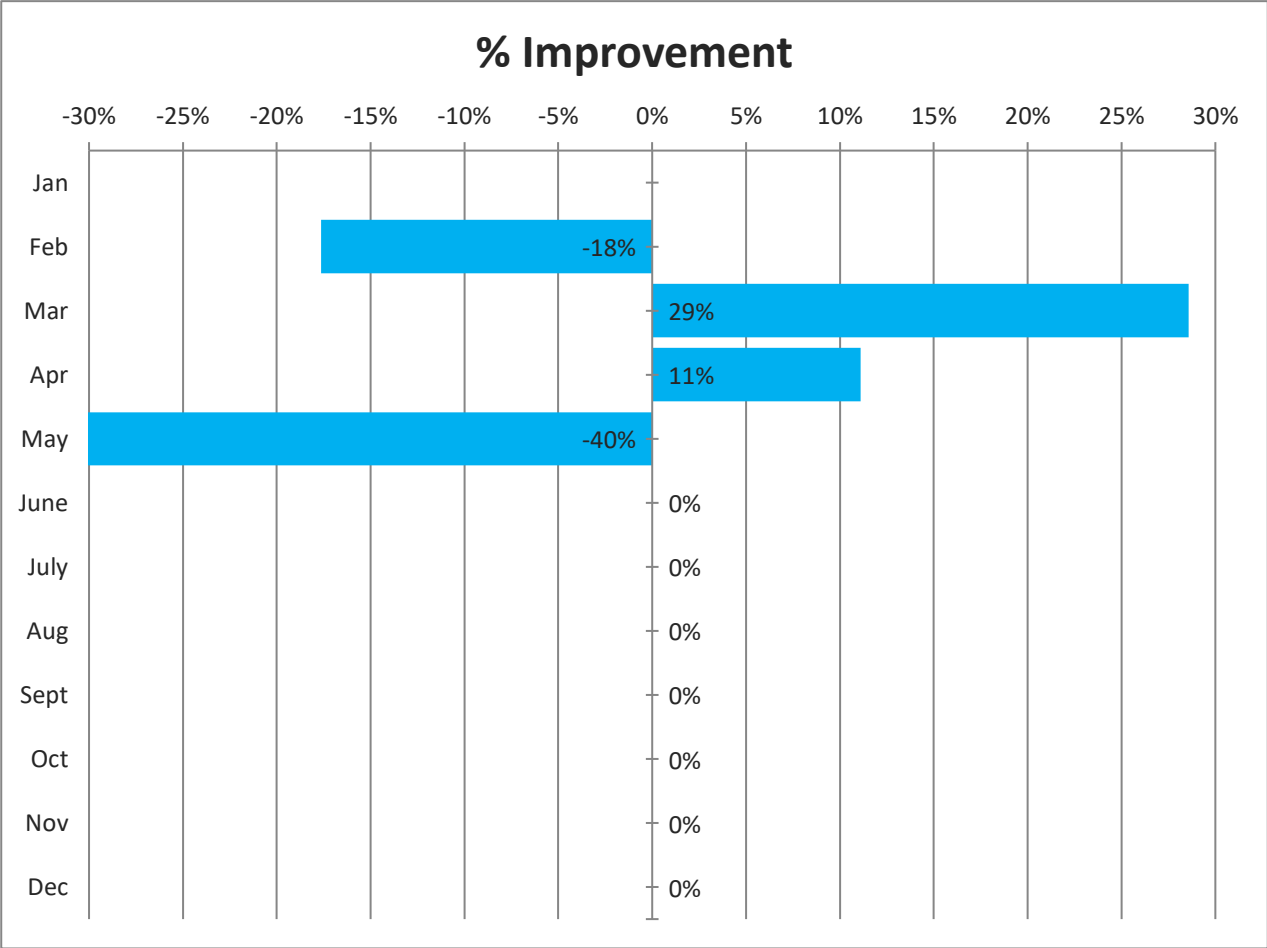

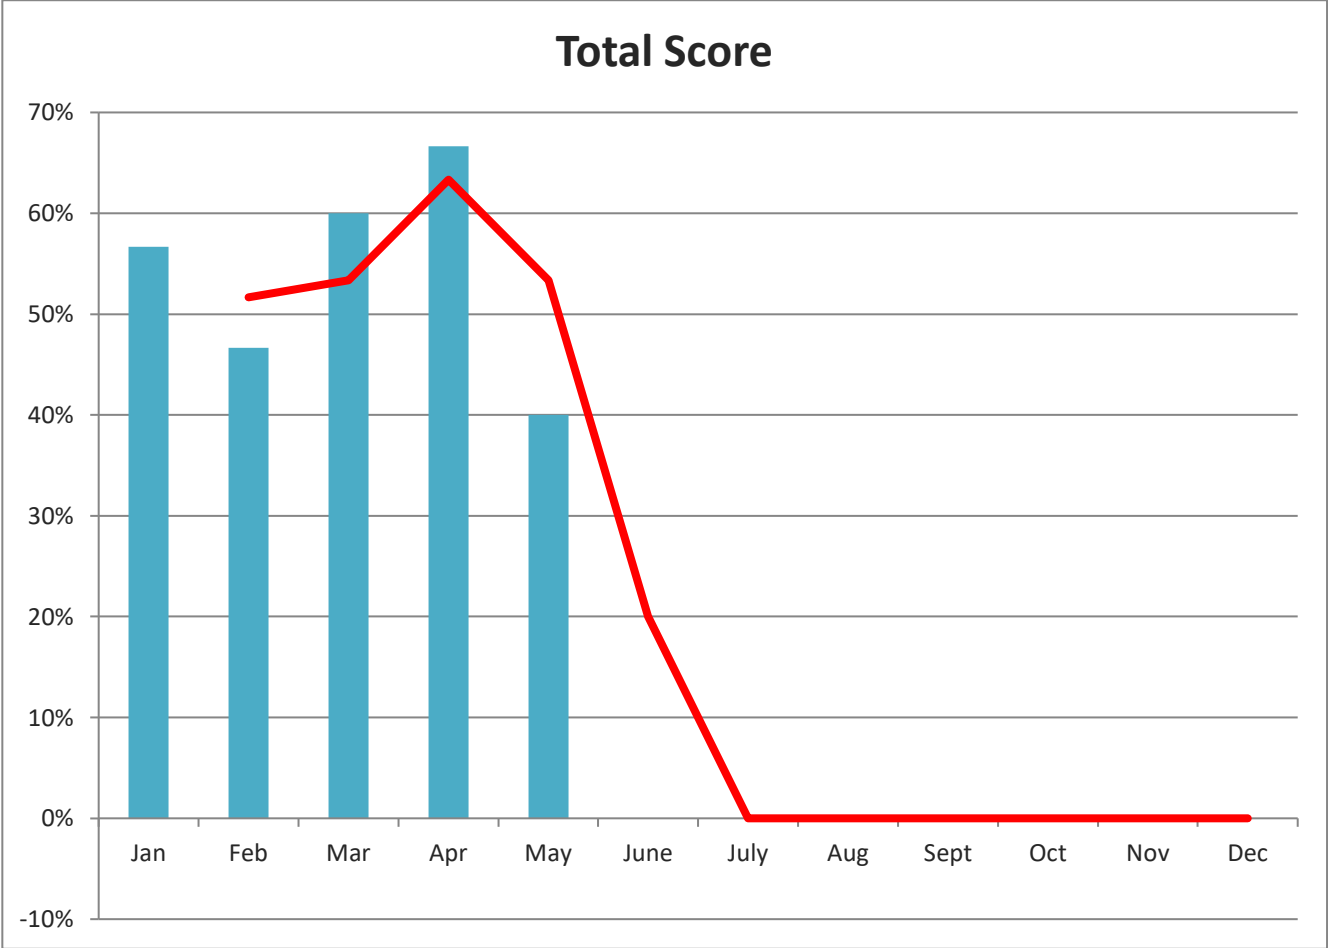

Performance Diagram

The following comments were made in May

QUALITY						
The worst performing part this month is 7736365		PPM = 10000	Comment -			
Line PPM Comments -			Line PPM Actions -			
Field PPM Comments - No data to share on this topic			Field PPM Actions -			
8D Comments -			8D Actions -			
Overall Quality Comments -						
LOGISTICS						
The worst performing part this month is		OTIF = 0.6	Comment -			
OTIF Comments -			OTIF Actions			
Order Flexibility Comments - Market situation requires a lot of flexibility on both sides.			Order Flexibility Actions BDR & CFCA works together to postpone production shortages			
Packaging Comment -						
Labelling Comment -						
Other Supply Chain Comments - Need to work together on MOQ optimization for production & spare parts						
PROCUREMENT						
Cost Control Comments - CFCA wants to increase prices for production parts in June (due to raw material price fluctuation): +6%			Cost Control Actions -			
EV Comments - Your score is 47 or greater. Thank you for achieving our minimum requirement			EV Actions - Next years minimum score is 49			
Overall Feedback - Supply difficulties on market require continuous attention & collaboration between CFCA & BDR. To be maintained.
