Collaboration in controlling costs	Cost Control		5	3
CSR audit score using Ecovadis	Ecovadis	61	5	3
	TOTAL		10	6
	Grand TOTAL		25	15

Performance Diagram

The following comments were made in May

QUALITY							
The worst performing part this month is		PPM =	Comment -				
Line PPM Comments -			Line PPM Actions -				
Field PPM Comments - No data to share on this topic			Field PPM Actions -				
8D Comments - No 8D			8D Actions -				
Overall Quality Comments -							
LOGISTICS							
The worst performing part this month is		OTIF = 0.67	Comment -				
OTIF Comments - OTIF scores need to be revaluated. BDR shortage date file has been created to postpone as much as possible shortages			OTIF Actions				
Order Flexibility Comments - Market situation requires a lot of flexibility on both sides.			Order Flexibility Actions BDR & ASTEEL works together to postpone production shortages				
Packaging Comment -							
Labelling Comment -							
Other Supply Chain Comments - Need to work together on MOQ optimization for production & spare parts							
PROCUREMENT							
Cost Control Comments - Many tensions on electronics components market. Price increases coming from sub-supplier			Cost Control Actions -				
EV Comments - Your score is 47 or greater. Thank you for achieving our minimum requirement			EV Actions - Next years minimum score is 49				
Overall Feedback - Supply difficulties on market require continuous attention & collaboration between ASTEEL & BDR. To be maintained.
